by BOB CRAIG

The Farmers and Merchants National Bank's new parking area is a real nice improvement for Hamlin's downtown area. Not only did the bank get rid of an old eye sore but also provided more much needed parking.

Parking and cleaning up and remodeling the downtown area were two of the most repeated things listed in the Jaycee questionnaire just completed.

This is a good start in the right direction and now if more will follow suit it would be a big boost for Hamlin as a trading center. People prefer to shop in new, modern surroundings.

The First Baptist Church will move into their new building this week end. They have a building to very proud of and should be congratulated by all of the people here for their contribution to the community.

With most people worrying with their income tax about this time it might be a good time to mail your congressmen and Senators a letter the same time you mail your check to the Internal Revenue asking that the government stop spending more money than they have.

The government is asking that the ceiling on the federal debt be increased to 300 billion dollars and then will ask for another 8 billion dollar increase for the next fiscal year. Ceilings on the federal debt have been a polite fiction which recent administrators and Congress have ignored.

As a result, the debt of the United States increased from 42.9 billion dollars in 1940 to the wartime peak of 297.7 billion; even after the war ended and fiscal sanity demanded debt reduction, it has continued to rise.

The debt remained fairly stable for three years—1949, 1950 and 1951—at around 257 billion, then began to climb again, with only occasional reductions.

By 1955, the total was 274.3 billion and now it is almost 25 billion dollars more than it was just seven years ago.

How long can the economy support a multibillion-dollar yearly rise in national debts? How long can taxpayers stand the burden of growing interest payments on such obligations? When will the principal be repaid? Who will repay it, and how?

This should have been stopped long ago but wasn't because the taxpayers didn't demand for it to be stopped. Until the small taxpayer, who pays the biggest majority of the tax, puts his foot down and says he has had enough it will continue to grow.

If we start paying off some of the debt now and continue every year it is doubtful if even my children will see us out of debt.

If the present trend continues it won't be long before it will take as much tax money as we are collecting now just to pay the interest.

CARL WHEATLEY

J. C. (CARL) WHEATLEY BIDS FOR SECOND TERM TO AUSTIN

Mr. J. C. (Carl) Wheatley announced that he will seek re-election as Representative of the 83rd District. Mr. Wheatley, Democrat of Haskell, is presently serving his first term in the Legislature.

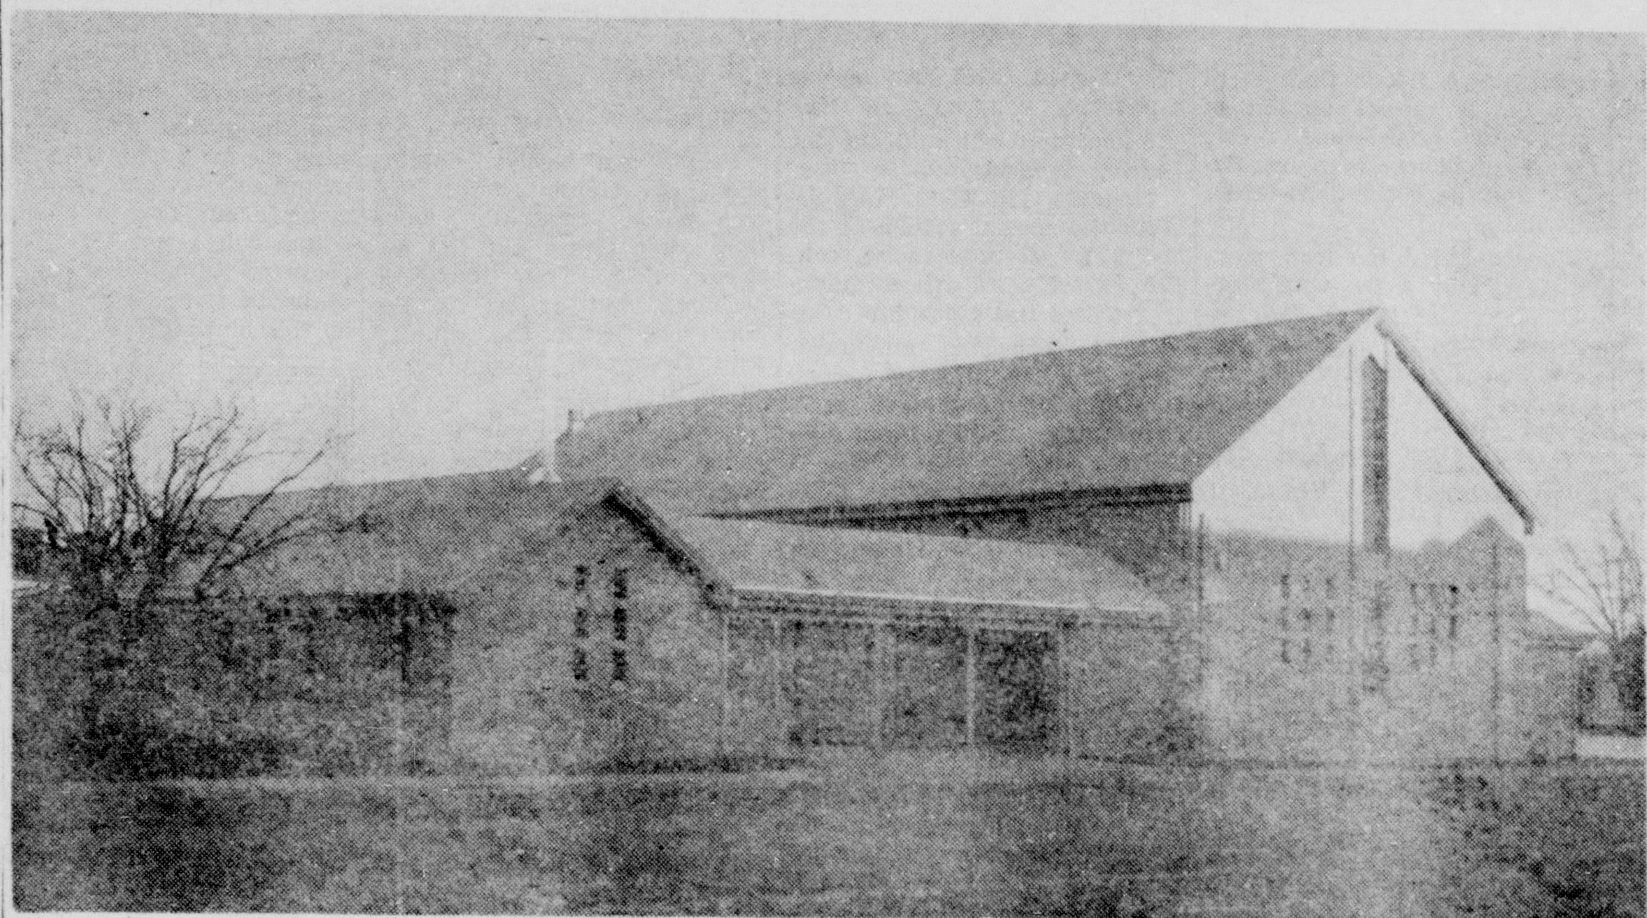

Mr. Wheatley announced for his second term despite the repeated urgings of his friends in the State Legislature that he should seek the post of Congressman-at-large.

"I feel that I can better serve the people of my district by remaining in Austin," Mr. Wheatley stated. "The 83rd District has many problems, and we are in the process of finding solutions now. If I should yield to the requests of my friends to make a state-

wide race, the progress we have made here would be hampered. For those reasons, I am asking my people for re-election to the State Legislature."

"My friends accorded me a high honor by asking and urging me to seek election to the Federal Legislature, but I feel that my first obligation is to my friends at home," Mr. Wheatley said in making this decision. "Most of my people know my platform, but there are new voters in the 83rd District, and I will issue the base for my campaign for re-election again."

"I will appreciate the support of all my friends, who (Continued on back page)

HAMLIN BOY'S LETTER RATED RUNNER-UP IN BANK CONTEST

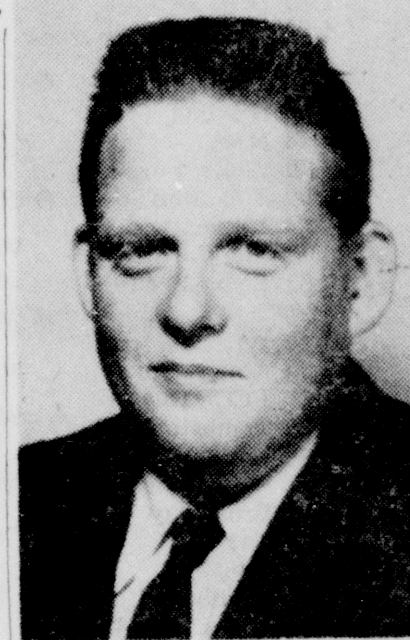

Pete Warnell, 18-year old Hamlin High School senior, was one of two runner-ups in the "Dear Ivan Contest" sponsored by the First National Bank of Abilene. Warnell's letter along with the first and second place winners and the other runner-up's letters are on display in the lobby of the bank and will be forwarded to the State Department.

The letters were to tell Ivan, an imaginary Russian youth, about our country and why we wanted peace and to offer a solution for reaching that peace if youth had a solution. Pete is the son of Mr. and Mrs. L. E. Warnell of 545 N.E. Ave. A.

His letter follows:

Dear Ivan, I am a senior in high school, eighteen years old. The high school I attend is small, and the town I live in is small, but, as you know, it takes small towns as well as large cities to make up this vast world in which we live.

I know very little about your country, your government, and your way of life except what I have read and heard. But I think there is a right and wrong side to every story, and I believe that if the teenagers of today could get a true understanding of the government of each nation they could form their own conclusions as to the right and wrong of each country. As you know, the young men and women of today will be the leaders of tomorrow. Later, however, I have been undecided whether or not there will be another generation because of the disputes, debates, and jealousy of accomplishments that could be achieved. And Ivan, why would any government want to destroy the wonderful

PETE WARNELL . . . second runner-up

world in which we live, when we could combine and make it more pleasant for you and me and future generations to live in?

No man will ever have the power to reign over this mighty earth in which we live, Ivan; If you were to take me on a tour of your country and I were to take you on a tour of mine, I am sure that neither of us would want to destroy this beautiful world which was made for peace among all men. I think that if you and all the teenagers of Russia would pray each day for peace and the teenagers of my country would do likewise, the next generation would be a world united in peace. This alliance would solve more problems than anybody's guns and bombs could ever solve. Please, let's all give it a try.

Yours truly, Pete Warnell, U. S. A.

JAYCEE QUESTIONNAIRE — PART TWO

Selection, Quality and Price--Reasons for Trading Elsewhere

(Editor's note: This is the second in a series of articles based on the results of the recently completed Community Survey Questionnaire circulated by the Hamlin Jaycees.)

Results of the recent Hamlin Jaycee questionnaire reveal that selection, quality and price are the principle reasons given for not shopping 100 per cent in Hamlin with selection and quality repeated more than price.

Of the 203 surveys returned, 68 people said that they did 100 per cent of their shopping here, 109 between 50 and 90 per cent, 11 said 25 per cent and three said less than 25 per cent.

Most of the comments given as to why they did not do all of their shopping in Hamlin were in relation to clothing. Some of the reasons were: "It's just not available here

—shoes are limited, children's clothes are less than preferred quality—or everyone has the same thing!"

"Sizes, Quality, price." "Not wide enough selections. Never have sizes to meet needs of my family."

"Selection, price, unconcerned merchants." "Dry good stores do not keep their stock up. Never can find right sizes in blue jeans even."

"Limited local selection in clothing for women and children."

"My wife says that she cannot obtain the sizes and variety of clothing here. Same about shoes. Lack of variety in furniture and prices."

When asked if they would be willing to do all of their shopping in Hamlin on a trial basis for 90 days if all of the merchants made an all-out effort to meet their needs 153 said they would and 23 would not.

On the question of whether they would like to see the merchants open one night a week for shopping 101 were in favor of it and 77 were not. One survey suggested one night a month and run good specials. One voter would like to see the drug stores open one night a week.

Many suggestions were offered to improve the services and facilities of the local stores. Some of these were: "To a few I would suggest a more friendly attitude, a willingness to keep up their stock and try to supply the needs of their customers. Sometimes their attitude of indifference is appalling."

"More attractive display of merchandise. Completely clear out old stock periodically. Clerks not complain in front of customers."

"Be more friendly. Wait on customers when they enter the doorway or acknowledge customers. Majority of employees in stores very nice. Some let customers stand around while employees chat with each other."

"By not closing too early on Saturday."

"They could stock a wide variety of merchandise."

"Parking and stocking shelves."

"Make more of an effort to get items not in stock."

"Stock more 'Name Brands.'"

"Stock up to date merchandise. If they can't financially offer to order some items on competitive prices."

"Wider choice of sewing needs and ready-to-wear."

"More cooperative with each other."

The people of Hamlin will have an opportunity to witness some of the best basketball games of the year this week and next as Coach Ed Farmer tries to get his girls team ready for their bi-district encounter with Spearman. The local girls won their district for the first time in the school's history and will go against last year's second place team in the state when they tangle with Spearman in Abilene February 26.

The girls will play both Eula and Aspermont here which should give the girls a real work-out.

The girls are having a real fine season and all of Hamlin will be wishing them the best in the play-offs.

My wife and I had the opportunity to hear Millard Bennett, a dynamic speaker and sales specialist, at a stationers show sponsored by Carpenter Paper Company, a wholesale distributing co., Sat. at noon. Mr. Bennett believes that anyone can master any subject that they desire to master if they will just spend 30 minutes a day, every day for a period of five years.

He said that you must read every day, not skipping a day very now and then.

After thinking about his idea I have come to the conclusion that if anyone can just master the problem of finding 30 minutes every day to devote to the project anything else would be a snap.

A life-time Democrat, Roy Arledge said he announced his candidacy for state representative in the Democratic primary at the urging of many democratic friends whose "advice and counsel I value."

The list of local and state civic club offices Arledge has held is long and impressive. His success in cattle breeding and sales has long been phenomenal in this area.

Roy Arledge was pioneering the use of airplanes in ranch operations long before it became popular with "big city boys who happened to invest in land." For his interest and work in flying, Arledge was elected president of the Texas Private Fliers Association. He was written about in national publications for his use of airplanes to seed grasslands.

But the use of airplanes was not the reason for the candidate's success in business. A knowledge of stock handed down from his father, the late Thomas Emit Arledge of Nolan County, was the basic ingredient.

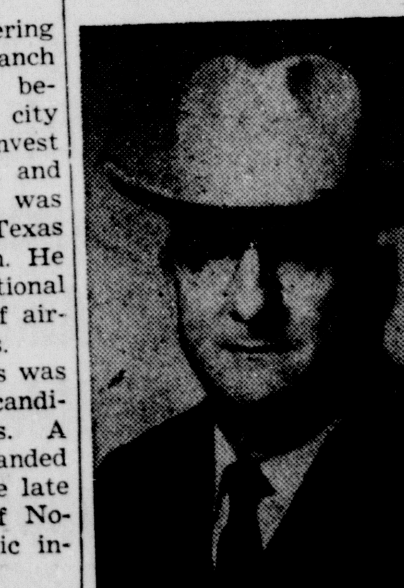

While the use of air transportation and the breeding of cattle have made the Arledge name well known in Jones,

Throckmorton, Baylor and Throckmorton Counties, Roy Arledge considers himself basically a farmer who is concerned with planting and raising grain and cotton.

Roy Arledge understands our area and its problems—water and financing. He worked to obtain Lake Stamford and has long been interested in water for West Texas.

For 12 years he was chairman of the Quarterhorse division of the Texas Cowboy Reunion. Roy and his brother Henry's cattle breeding honors go back more than a dozen years when the Arledge brothers saw the royal purple pinched on their cattle as grand champions at San Antonio.

Few social events of our town could surpass the Valentine Party of the Woman's Literary Club. Good thinking make good players also and the club played from three to five. Mrs. W. S. Douglass was hostess assisted by Mrs. Fowler, Mrs. Albritton and Mrs. Claude Gray. The party was cleverly planned to appeal to all by a test of skill with the hands and the brain. Those present were Madames Albritton, Cassie, Cook, Dolman, Douglas, Fowler, Gray, Green, Houghton Keen, Kilker, Meador, Miller, Moss and her guest Mrs. Gates; Mesdames Neff, Owen, Payne, Routh and Smith. STATE CAPITAL

Highlights AND Sidelights

by Vern Sanford

Austin—A hectic final night ended the special session of the Texas Legislature. Two major problems—loan regulation and appropriations—were left unfinished.

Senate killed the loan regulatory bill by a two-vote margin, after the House had approved it by 18 votes. It was described by experts as the strongest loan regulatory law in the nation.

Death came to the appropriations bill in the House. It would have provided money to advertise for tourists, repair San Jacinto Monument, repair damages done to state properties by Hurricane Carla and by fires, pay Senate employees and finance a number of other items.

Gov. Price Daniel called it a very productive session, nevertheless.

He said it had settled two long-standing issues—bank check reporting and farm-to-market road policy.

Daniel was disappointed about the failure of the loan legislation, tourist advertising, and San Jacinto Monument repairs. But he said he would not call this Legislature back into session in the foreseeable future.

Lawmakers headed for home to file for re-election and begin their campaigns for the same or other offices.

This session set some sort of a record for fast action on bills to solve local problems. These ranged from closing season on alligators in Orange County, to a score of bills creating new water districts (to undertake drainage, hurricane protection or water supply projects.)

Daniel was pleased at the bill changing the name of the State Board of Water Engineers to the Texas Water Commission, and reworking it into an image of the State Highway Commission. The chief engineer takes over full administrative control, leaving policy matters in the hands of the three-member commission.

Governor Daniel studied a flood of mail, telegrams and phone calls, which he had elicited, and decided that there was a definite public demand for him to try to become Texas' first four-term governor.

WHO SHOULD CENSOR?—Question of school book censorship was buffeted about by 22 witnesses, when the House Textbook Investigating Committee held its fourth weekly public hearing.

Some 200 persons attended the hearing. Frank Wardlaw, director of the University of Texas Press, said, "There are no men wise enough to serve as censors." He stated that he would prefer that his children's textbooks be censored by authoritative professors, rather than by unqualified individuals.

Author J. Frank Dobie said "the mere textbooks are censored, the weaker they become."

The opinion that regulation of teaching materials by elected trustees has worked satisfactorily was expressed by former Baylor University trustee Joseph M. Dawson.

Other witnesses, such as Mrs. A. A. Forester of Texarkana, Richard L. Harvey of Tyler and M. F. Gabler of Hawkins, criticized the Board of Education's formula for censorship. They said they firmly believe that modern textbooks fail to instill a sense

of patriotism and love of our country.

Committee will hold another hearing February 9.

NAMES IN THE HAT — With the special session of the Texas Legislature ended, candidates for state offices quickly grabbed the spotlight.

Most surprising announcement was the filing of former Gen. Edwin A. Walker as a Democratic candidate for governor.

Then came Gov. Price Daniel's statement that he would seek re-election to a fourth term as governor.

Land Commissioner Jerry Sadler predicted that Daniel would run again, and cancelled his tentative plans to seek that post. Instead, he announced for re-election.

Attorney General Will Wilson said failure of the loan shark bill to pass was the determining point in his decision to file as candidate for governor.

John Connally, already campaigning for office of governor, came to Austin to pay his \$1,000 filing fee and left immediately on a flying organizational trip to West Texas.

Gubernatorial candidate Marshall F. Erby opened state headquarters in Austin. He appointed Dr. James B. Ray, of Austin, Wendell Gambill, Dr. Joe Webb and Clint Formby to organize his campaign.

Don Yarborough, Houston attorney, paid Austin a visit to announce his candidacy for governor.

So far, the only Republican contender for governor is Jack Cox of Breckenridge.

Agriculture Commissioner John C. White filed for re-election to the post he has held since 1950. White said 1962 should be a turning point in achieving greater self-determination for farmers and ranchmen.

J. Evetts Haley of Canyon is the only other announced candidate for commissioner of Agriculture.

Other candidates for statewide offices flooded the State Democratic Central Committee headquarters.

William G. Street of Littlefield filed for associate justice of the Supreme Court, Place Three, against incumbent Judge Z. L. Steagley. Judge Meade Griffin, who holds Place One on the Supreme Court, drew Jesse Owens of Amarillo as an opponent. As of Saturday Judge James R. Norvell had no opponent in his campaign for re-election to Place Two on the court.

County Judge Woodrow W. Bean of El Paso; Warren G. Moore of Tyler; and Manley Head of Austin, filed for Congressman-at-large.

Judge W. T. McDonald of Bryan, Court of Criminal Appeals justice, joined the attorney general race.

Immediately after the House passed the loan bill, Speaker of the House James A. Turman announced for lieutenant governor.

That brought the total of democrats running for the second spot to six: Sen. Preston Smith of Lubbock; Sen. Crawford C. Martin of Hillsboro; Sen. Robert W. Baker of Houston; Sen. Jarrard Secrest of Temple and former representative Gene Smith of Fort Worth, plus Turman.

There was activity on the Republican side, too.

NEINDA PHILOSOPHER CLAIMS CANADA HAS WORST FOREIGN POLICY-IT'S THOSE CANADIAN COLD FRONTS

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route 1 discusses foreign policy this week, or cold weather, it's hard to tell which.

Dear editor:

People are always talking about the United States' foreign policy, especially when they can't figure out the answers to all our domestic problems, but as far as I'm concerned with the country with the worst foreign policy on earth is Canada.

It's those Canadian cold fronts Canada is always pushing down on the United States, that's what I'm talking about.

When the forecast announces a Canadian front is heading this way, you can expect the worst. I know we can produce some cold spells on our own, a low can develop in one part of the country and sweep cold air down on another, or however it works, but when it comes to the really jolting cold waves, Canada has us beat. There's a weather gap between our old and Canada's that makes the missile gap look tame.

In fact, so many cold fronts have been coming out

Temple and Kellis Dibrrell of Seguin both filed as candidates for lieutenant governor. Dibrrell practices law in San Antonio. Hayes is vice president of Continental Belton Company in Belton. Both are 43 years old.

Earlier, two other Republicans had filed for the same office—Congressman at large. They were Giles E. Miller, Dallas publisher, and Desmond Barry, Houston industrialist.

SUGGESTS FORUM —Tom Reavley, Austin attorney running for attorney general, suggested joint appearances for himself and opponents, Waggoner Carr of Lubbock, Les Proctor of Austin, Tom James of Dallas and Judge W. T. McDonald of Bryan.

"Joint appearances of the candidates will bring the issues and the candidates squarely before the people of Texas," he said.

of Canada this winter you'd think we'd been sending foreign aid up there and missed our December installment.

Speaking of foreign policy, non-weather variety, there's one thing that has been puzzling me for a long time. Washington experts are always worrying about how a course of action will affect some foreign country. "What will they think of us in Latin America if we do this or that?" they ask. Or,

"How will this affect South Africa's opinion of us? We can't afford to make them mad at us."

Well, this is all fine and good, but what I'd like to know is: does any other country on earth ever stop to ask how its course of action will affect the United States? How is it that we can't afford to make them mad, but they can all afford to make us mad? Isn't there just one country

just one country which wakes up some mornings wondering how it's getting along with the United States. If you find out let me know, and we'll take a collection to send someone to get acquainted. Meanwhile I won't hold up my farm while waiting. I have plenty of other reasons for holding that up.

NEINDA PHILOSOPHER CLAIMS
WEATHER HAS TO BE EXACTLY RIGHT
FOR BOTH ORBITING AND FARMING

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route 1 takes a look at space flights, his letter this week reveals.

Dear editor:

Like nearly everybody else, I was glued to a television set watching preparations for the launching of a man into orbit around the earth and like everybody else I too was disappointed when the launching had to be postponed.

I was talking later with a man in town and he said, "Aw, I don't understand it, why should a few clouds get in the way when he's going to be orbiting above them anyway?"

It's pretty clear that that man doesn't understand the intricacies of space launchings or farming either.

I don't know whether you're aware of it or not, but launching a man into space is almost exactly like farming — the weather has got to be just right before you tackle it. It can be too cloudy to orbit the earth just as it can be too wet to plow, or too windy to fish. Even if the weather is right,

that's not the whole answer. On a bright, sunny day, a leak in a fuel line can stop Col. Glenn from orbiting and me from farming, and I think everybody ought to come to a fuller appreciation of the complex difficulties of both these enterprises.

If a man is all set to orbit the earth or cultivate its surface, he's got to be philosophic about the situation and not rush into either unless everything is exactly right. Col. Glenn, as far as I'm concerned, expressed a sound philosophy toward both orbiting and farming when he crawled back out of his space cabin after the flight was postponed and said: "If not today, some other time. What's the rush?"

Col. Glenn, you're welcome to visit this Johnson grass farm any time you want to.

People have got to understand that it's impossible to say: "Next Thursday at 9 a.m. sharp we'll put one man into orbit and two million farmers to plowing."

Us space and farming technicians have learned long ago that things don't work that way, and I'll be glad when the rest of you laymen learn it too.

Yours faithfully,
J. A.

The farmers out our way have really been taking advantage of the beautiful weather we have been having. Tractors are running in every field. They are preparing the land for another crop, since the last year crop has finally been harvested. Owing to the

bad weather harvest was late but now most of the stalks are cut and the land broken. Attendance was up a little at church Sunday, since there were some visitors. The Drake family and Mr. and Mrs. Jimmy Holmes were visitors.

The pastor went to Swenson, in Stonewall County on Sunday, to preach and in his absence he asked Steve Ateek of H-SU to fill his pulpit. Steve, a native of Nazareth, Israel, is now a junior in Hardin-Simmons and a very able preacher. He also brought his accordion and played some numbers Sunday night.

He spent the day Sunday with Connie, Maude and Della Drake. Several from our way attended the funeral for Mr. Boss Wilson, in Stamford last Tuesday. Mr. and Mrs. Elmer Joiner, Buck Joiner, and Mrs. Earl Herbst were among those going. Mr. Wilson's grandson, Billy F. Joiner is a nephew of the Joiners, and they visited with him, as he lives in Brawley, California and was here for the funeral.

Also attending the funeral were Mr. and Mrs. George Wainscott and Mr. G. W. Wainscott. George served as pallbearer.

Mr. and Mrs. Mel Jones went to Stamford last Tuesday to visit his brother, Newman Jones.

Mr. and Mrs. Winson Gray went to Brownwood Saturday to attend the funeral of his uncle, Graves Wood, but since a son could be there, who was enroute home from Korea, the funeral was postponed until Sunday, so the Grays did not go back.

Mrs. Earl Herbst ate lunch with Mrs. Raleigh Bond last Tuesday.

Mrs. Woodrow Goodwin, Linda and Mrs. Elmer Joiner went to Abilene Saturday. They went to redeem their stamp books, that is something the chamber of commerce should work on getting in Hamlin, is a stamp center, so after you get the stamps in Hamlin you won't have to go to Abilene to get your premiums, for naturally you will spend money while you are there.

Mr. and Mrs. E. A. Henry had as guests last Tuesday night and Wednesday, his brother, Mr. and Mrs. M. C. Henry, Crosbyton, and a sister, Mrs. Ethel Bollock of Petersburg.

Mr. and Mrs. Jimmy Holmes of Midland, spent the weekend with his parents, Mr. and Mrs. Flavil Holmes. Mr. and Mrs. Jack Wright and Melinda, also spent Sunday with them.

Mrs. O. L. Jenkins reported that the Rev. E. D. Crump of Waxachie, visited with her last Wednesday afternoon. He was pastor at Fairview forty years ago.

Mrs. Jenkins also reports that her daughter, Mrs. W. A. Norris, of Aspermont, that had recent surgery is not doing very good. It is feared at this time she may have additional surgery.

Mrs. Johnnie Agnew has had some more teeth pulled and has run into very painful complications again. She was planning on having these out when the "sign" was right, since she has had so much trouble previously, but it appears that going by the signs of the Zodiac didn't help any.

Mr. and Mrs. Frank Herrington, parents of Mrs. Doyle Combs, came Sunday and stayed with the Combs' little ones, since they had been exposed to measles, and their parents were afraid to take them out among other children.

Four men from our church attended the Associational Brotherhood meeting in Anson last Monday night, where the pastor, Rev. Doyle Combs delivered a message on the liquor problem of advertising, and he gave a report on what four rural churches, Fairview, Hanna, Corinth and Tuxedo, are doing to help fight it. Besides the pastor, attending were Winson Gray, Woodrow Goodwin and H. L. Ford.

Mr. and Mrs. Fred Rosenbaum went to Hamlin and visited with the W. L. Fletchers Sunday afternoon, in their new home. They reported Mrs. Fletcher as not being well.

Mr. and Mrs. Woodrow Goodwin visited with Mr. and Mrs. Frank Herrington and the Combs children, Sunday afternoon.

Mrs. Elmer Joiner accompanied Mrs. Noel Weaver, Mrs. H. H. Windham and Mrs. Mary Y. Newberry to Jayton last Wednesday, where they attended the district 3 planning meeting of the Home Demonstration Clubs. The meeting was held in the District Court Room, of the new court house in Jayton.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

AUSTIN—Candidates flood-

ed this capital city as the filing deadline arrived. Politicians came to town to pay filing fees for state offices at both the state democratic headquarters and the republican camp.

Thousand dollar fees were paid in many ways: One thousand and one-dollar bills, one hundred ten-dollars bills, and various contributions from friends of the candidates.

A former athlete brought a handful of ex-football stars along to show that he had a

night when it was learned that their granddaughter, Kay McCoy, had been involved in a wreck in Hamlin. It was just one of those unfortunate things, between Kay and a car driven by Mrs. Foster Cook, and fortunately, no one was injured, although quite a bit of damage was done to the cars.

The farmers out this way are still taking advantage of the unusually warm sunny weather, to get their plowing all done. They all know that it probably won't last, for the old ground hog definitely had to see his shadow this time, and winter isn't over yet, even though it is almost like spring.

Another thing, the farmers are beginning to be concerned about rain again. Owing to the bitter cold in January, the wheat looks a little bad, and a good rain would be very beneficial to it.

There were very few surprises at the State Democratic Executive Committee: Gubernatorial candidates John Connally, Marshall Formby, Will Wilson and Maj. Gen. Edwin A. Walker had paid before the deadline; Don Yarborough was expected, and everyone knew Gov. Price Daniel would show up after his TV announcement.

Austin Attorney Bob Looney arrived at the last minute to join Tom James, Tom Reavley, Waggoner Carr, W. T. McDonald and Les Procter in the attorney general's race.

Keith Wheatley, 27-year-old Stamford oil operator, decided to oppose Railroad Commissioner Ben Ramsey in the May primary.

Both Looney and Wheatley filed without paying, but plunked down their \$1,000 fees by the Feb. 8 deadline.

Joe R. Pool, Dallas attorney, Charles H. Stevenson Jr. of Nueces County and rancher Phil Willis of Kaufman County, made the same sort of financial transaction as candidates for congressman - at large.

Houston businessman Robert W. Hervey and Mitchell County District Judge Eldon Mason forfeited their right to run for congressman-at-large when they failed to follow filing with payment of filing fees.

Indicative of the expected turnover in both House and Senate is the democratic line-up for lieutenant governor:

A. Turman, Senators Preston Smith, Jarrard Secrest and Speaker of the House James Robert Baker, all are abandoning present posts to seek the state's second highest position. Gene Smith of Fort Worth is the only non-legislative candidate for lieutenant governor.

REPUBLICANS RALLY — "Rebirth of the republican party in Texas" has been widely discussed. It was quite evident when filing time was over that considerable progress had been made. If the party wasn't reborn; it certainly was revitalized.

Breckenridge oilman Jack Cox—former democratic candidate for governor who announced for the GOP months ago—got two opponents at the countdown. One was Amarillo rancher-publisher Roy Whittenburg, who polled 185,926 votes when he opposed Ralph Yarborough for the U. S. Senate in 1958. The other was Henry Diehl, Houston factory representative, who was one of the 71 who ran for Lyndon Johnson's senate seat last year.

Republican line-up for house and senate seats is imposing. Fourteen republicans are campaigning for 10 of the 31 senate seats. And 74 republicans have filed for 70 of the 150

representative offices. Two already are members of the House. They are George Korkmas of Texas City and Kenneth Kohler of Amarillo. They seek re-election to offices they won in recent special elections.

VALLEY FREEZE CREATES FOOD SHORTAGE — Agriculture workers "frozen" from jobs by the recent freeze in the Valley caused a stir of activity in the commodity distribution division of the State Department of Public Welfare.

Division Director W. M. Herndon has just returned from two trips to the Valley to talk to county commissioners in Cameron, Zavala, Wilbrey and Hidalgo counties. There, the need for emergency distribution of government surplus foods is desperate.

DPW is distributing food for 5,000 in Cameron County, 4,000 in Willacy County, and 2,500 in Zavala County. Also it is adding 20,000 people to the program at Hidalgo County, which provides food for 600 needy people on a regular basis.

Most commissioners look for the emergency to end within 30 days, when business in the area is expected to recover.

SALES TAX RULING KEEP

COMING— Governor Daniel's announcement that he hopes to amend the sales tax structure probably caused groans in the Comptroller of Public Accounts' office, where they're constantly busy interpreting the two per cent sales tax as it now stands.

Most recent interpretation involves advertising agencies which finance their operation on a 15 per cent commission basis, rather than by charges. Comptroller ruled that the tax does not apply to intangible services and therefore excludes the commission from taxation.

But clients must pay tax on drawings, paintings, lettering and printed matter, and with the fantastic volume of this type of production involved in a campaign year, the state ought to net a fair-sized income from advertising agencies.

In 1960, 37% of those paying social security taxes were aged 40-59.

DePriest School's Homemakers Give Style Review

The DePriest Chapter of New Homemakers of America presented their annual style review Friday night in the Hamlin High School auditorium.

Since the strong interest manifested by our nation in attempts to establish temporary and permanent stations above the earth's stratosphere for the purpose of communications and refueling and these thoughts are so strong in the minds of the youths, "Fashions from Space" was the theme of the show. The theme was carried out both in the performance and decorations. The platform was decorated to give a feeling of being in space. The overhead was covered with glittering stars and planets and the point of interest was an enormous rocket that seemed to be soaring through the sky.

There were twenty-eight models both from the regular and adult classes. They modeled fashionable apparels for lounging, school, sportswear and evening. Added attractions for this year were three fashionable hair styles from Lena's and Dora's Beauty Shops.

Musical selections were presented by students from the Woodson High School in Abilene with Noble B. Canida Jr. as director. Visiting models were from the Booker T. Washington School in Sweetwater.

The evening was climaxed with a reception given in honor of the visiting schools in the homemaking department.

"We are anticipating better and greater things in the years to come. We want to thank our many friends for their participation," stated Mrs. E. M. Cunningham, homemaking instructor.

SCREWWORM CONTROL GROUP SEEKING TO COMPLETE DRIVE

Stockmen and sportsmen of Texas and the Southwest have been requested by the South-west Animal Health Research Foundation to "pull all stops" immediately in their drive to control and possibly eliminate the costly screwworm. Charlie Myatt, chairman of the Jones County Screwworm Control Program Committee said he had been advised by the Foundation's Board of Trustees that the long-sought goal of a screwworm-free Southwest would be a possibility for 1962 if full advantage is taken of the hard freeze of two weeks ago which dealt the flesh eating parasite a very crippling blow.

Chairman Myatt added that if the \$3 million voluntary contribution goal of the drive is reached within the next two or three weeks, they could expect estimated savings during the next two years of \$200 million from screwworm damage and treatment costs and a reduction of up to 50% in the cost of the eradication program.

These savings alone, he said, make a stepped-up effort most

LOCAL BUSINESS . . .

S. S. Talbert, Ph. D. Chairman, Dept. of Journalism University of Mississippi

Banks, which are often regarded as the most conservative of business institutions, have become among the most consistent of advertisers.

For years, bank advertising was restrained institutional promotion which did not attempt to sell any particular service.

In recent years, more progressive banks have taken a new look at the objectives of their advertising. Although they still recognize the value of keeping their banks' names before the public, they now realize that they can effectively sell many specific services through advertising.

Banks have found that the best way to encourage people to start saving accounts is to point out through advertising the specific benefits which a saving account may bring to the individual.

Services to farmers, business-

men and homeowners are outlined in detail in modern bank advertising. For the first time, millions of people are learning that a bank is more than a place to cash checks and store money.

SCHOOL NEWS

The Old Glory girl's basketball team participated in the Hardin-Simmons Tournament last week. They beat Trent on Thursday in an overtime 38-36 but were taken out of the tournament by Abernathy on Friday. The local teams this week will be playing Noodle and Hawley; both games here at Old Glory. The game with Hawley will also feature a

Pancake Supper sponsored by the Junior Class. Serving will start at 5 p.m. with generous servings costing only 75c, or 50c for children.

Nancy Robinson, as recipient of the Betty Crocker Award, was presented a certificate and medal by the Superintendent V. R. Leverett. She was also among the honored attending the Rodeo courtesy of the Southwestern Stock Show Association.

The Old Glory 4-H Girls met following the joint meeting with boys for the purpose of having a demonstration given by Judy Sander and Reva Letz. The opening exercises were led by Nancy Vahlenkamp. Secretary Carolyn Sander called the roll and read the minutes.

Only Alto Site Remains

Texas expelled the Neches Indians from the state in 1839. The site of one of their old villages is just five miles southwest of Alto, in Cherokee County, in the central portion of East Texas, near Rusk.

This village was active in the lives of the Neches at the beginning of the 18th Century. The Neches River was named for these Indians, as was a nearby mission established by the Cherokee Indians, the Mission San Francisco de los Neches.

Without Surgery

Stops Itch—Relieves Pain

For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids and to relieve pain—without surgery. In case after case, while gently relieving pain, actual reduction (shrinkage) took place. Most amazing of all—results were so thorough that sufferers made astonishing statements like "Piles have ceased to be a problem!" The secret is a new healing substance (Bu. Tyne®)—discovery of a world-famous research institute. This substance is now available in suppository or ointment form called Preparation H®. At all drug outlets.

The Church Building

This is only a building, but it is a special building for it is the worship place for God's people. It is a place where one may go to study and hear God's word preached.

"...faith cometh by hearing, and hearing by the word of God."

If there are unanswered questions in your mind...go...seek... and find God in his house this Sunday.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Compare the above to an advertisement of a metropolitan department store:
"Cook Your Creative Best On A Roastright Range. Biscuits, pies and cakes come out golden brown, etc. . . . Cleaning is easy. White porcelain finish wipes clean etc. . . . Foods can't scorch or boil over . . ." The advertisement goes on to give detailed specifications of the range. The price is proudly displayed and terms of time payments shown. Wattage of heating units and details of automatic features are listed.

An advertisement of the latter type sells. It brings in customers with money ready to spend.

Local merchants could run such advertisements, but too few do. They have the merchandise; their prices are fair; their service facilities are certainly most convenient. And, in the local newspaper, they have

The TIE that binds

A true love for our Lord and Saviour binds our hearts in Christian love.

This love encourages us to put our energies and efforts together to serve our Lord at home, at work, and at Church.

A truly wonderful fellowship exists for those who believe and worship together. Attend Church and worship with kindred minds.

"That I may come unto you with joy by the will of God, and may with you be refreshed."

EVERYONE IN THE CHURCH
THE CHURCH IN EVERYONE

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. JOHN WAYNE IN 'COMANCHEROS' COMING TO ROGUE SUNDAY

John Wayne, still number one box-office attraction after 32 years of film making, is in familiar strides again as he portrays Texas Ranger Captain Jake Cutter—in the 20th Century-Fox action packed saga of Indians, gun smuggling and violence in the early West, "The Comancheros," coming Sunday to the Rogue Theatre. Co-starring with Wayne are Stuart Whitman, Ina Balin, Nehemiah Persoff and Lee Marvin.

His performances in screen classics "Red River," "The Alamo," which he also produced and directed, and last year's "North To Alaska," have established him as the true image of the Western America.

In "The Comancheros," lawman Wayne arrests New Orleans gambler Paul Regret (Stuart Whitman) for killing a man in a gun duel. Believing Regret's story of self-defense, Wayne, off his guard, is knocked unconscious by his prisoner. When Wayne masquerades as a gun smuggler in order to penetrate the ranks of "The Comancheros," a renegade band supplying Indians with arms, he is surprised to find Regret, a member of the gang. The Indians are restless and Wayne is unable to warn his fellow Rangers of the impending danger.

After his tremendous success in "The Alamo," Wayne did not think he would be able to find a vehicle of similar stature in which to star. When he read James Grant's screenplay based on Paul I. Wellman's novel "The Comancheros," John was prompted to say, "This film has all the ingredients of a mighty western melodrama."

IN THE FOREST OF NO RETURN, the trees come to life and warn Tom (TOMMY SANDS), Mary (ANNETTE) and the children (ANN JULLIANN, KEVIN and BRIAN CORCORAN and MARILEE and MELANIE ARNOLD) of impending danger in the scene from Walt Disney's sparkling Technicolor live-action musical, "Babes in Toyland." The production stars Ray Bolger, Sands, Annette and Ed Wynn and opens Sunday at the Rogue Theatre.

Ford Motor Co. Issues Fourth Buyer's Digest

DEARBORN, Mich.—For the fourth consecutive year Ford Division of Ford Motor Company is publishing the "Buyer's Digest of New Car Facts."

Approximately three million copies of the 1962 edition will be distributed to auto owners throughout the U. S. A. Pioneered by Ford in 1959,

more than six million copies of previous editions of the book, which is designed to help car buyers obtain complete information before making their purchasing decision, have been distributed. In addition to specific information on new model cars, the book contains many informative general interest articles designed to help automobile owners get more economy, service, performance and pleasure from their car regardless of make. Following are some of the articles and features contained in the 1962 edition of the Buyer's Digest:

Is "Babying" Your Car Worth The Bother
10 Ways To Save On Car Insurance
The Car Revolution Continues
How Many "Miles Per Dollar" Are You Getting?
Also included are articles on automobile specifications, gasoline grades, station wagons, two-car families and complete reference material

WALT DISNEY'S "BABES IN TOYLAND" COMING SUNDAY

Combining all the tricks of his trade with the unforgettable music of the great composer Victor Herbert, Walt Disney has produced his first live-action musical, "Babes in Toyland," and the result is a sparkling, gift-wrapped package of screen entertainment. This delightful Technicolor production opens Sunday at the Rogue Theatre, and is aimed at the young in heart of any age.

From its "once upon a time" opening to the "and they lived happily ever after" ending, the screen is filled with sheer movie magic. There are fabulous sets and colorful costumes to dazzle the eye; awe-inspiring photographic and special effects to belie one's wildest imagination; lilting music to set the heart singing; lavish production number brimming with exciting dances; and a cast of characters right out of storybook land who are completely enchanting.

Some of the brightest, most talented names in show business today have been assembled from Hollywood and Broadway by Disney to head the impressive cast. Each role has been endowed with a performer, tailor-made for that particular part.

Brilliant dancer and actor Ray Bolger has never been more wonderful than in his first villainous role of Barnaby, the comic cad of the story. Teen-agers favorites Tommy Sands and Annette are a delight to the eye and ear as the attractive young lovers. Their singing of the memorable Victor Herbert melodies provides many moments of pure listening pleasure.

As the whimsical Toymaker,

famed comedian Ed Wynn is at his hilarious best, along with laugh-team Henry Calvin and Gene Sheldon as the bumbling accomplices of the villainous Barnaby.

Mary McCarty, Tommy Kirk and Kevin Corcoran all contribute their talents to the fun and fantasy of this colorful gay and exciting adventure into the land of make-believe.

ROY ARLEDGE--

(Continued from page one)

Abilene and other places. When Roy was president of the Stamford Chamber of Commerce he also was elected president of the Southwestern Ice Manufacturer's Association. He served six years on the Stamford city council. And during this time, Arledge did not neglect other civic duties. When he was awarded the coveted Boy Scout Silver Beaver award only 27 men in the history of the 31 years the Chisholm Trail Council had received the honor.

Arledge attends the First Baptist Church in Stamford. After such a lifetime of busy active work, Roy Arledge still has the advance philosophy and way of thinking that made him a pioneer in the use of airplanes in West Texas.

"When people discuss politics, I am a Democrat," said Arledge. "I like to look at each individual issue and not just vote on political expediency alone. But this doesn't mean I am trying to straddle any fences. I would classify myself as a middle of the road Democrat."

Roy Arledge and his wife, the former Lois Lee of Haskell County, moved to Stamford in 1930. He has two sons, Jack, the Ford dealer in Knox City, and Jimmy, a builder in Abilene.

Arledge said he is going to work hard as a candidate and pledges to work to the very best of his ability to represent his area when elected.

5 loads for the price of 1-only with a GAS dryer

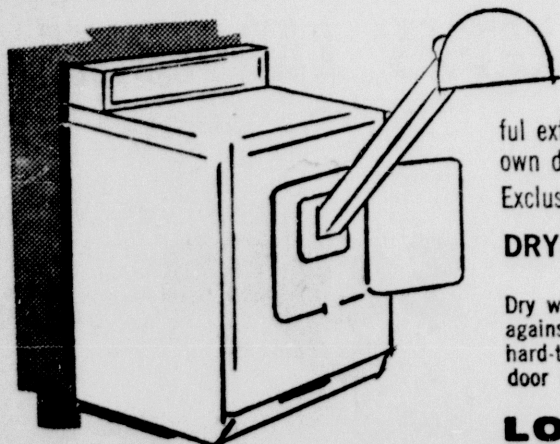

Have a real Scottish fling with a gas dryer! Gas dries a load of laundry for about a penny—compared with a nickel or more a load for non-gas automatics! And gas is fastest in drying cycle. Saves ironing time, too, because with the wrinkle-free setting, wash 'n' wear clothes need only touch-up ironing or none at all! So scoot over to top economy and performance—buy a gas dryer now.

Here's what QUALITY has done:

At last count there were 1,499,927 Chevrolet trucks over 10 years old still working—424,381 more than any other make.

1962 CHEVROLET JOBMMASTER TRUCKS

built better...work longer!

When Chevrolet builds a truck, it builds a quality truck. This policy makes sense. Chevrolet trucks work a long time . . . cost less than many other makes to operate and maintain over the years . . . consistently bring a higher trade-in price . . . and, as a result, are bought by more people.

We invite you to come in and

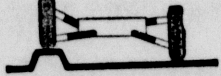

examine this quality closely and to take a 1962 demonstrator out for a good long test drive. Note the cab comfort, the good visibility, the smooth ride, the solid feel of its quality. Compare Chevrolet truck features with those of other makes. Then decide which are your wisest investment. We're sure it will be Chevrolet's.

Note how this Chevrolet cab roof is made of two sheets of metal, instead of one, with a layer of felt in between as insulation against cold, heat and noise.

A Chevrolet truck tailgate is sturdier because it has double-wall construction and strong steel chains in tough rubber casing to support it.

Quality independent front suspension fights road shock more effectively than other types—provides more protection for the truck, load and driver.

The standard 235-cu.-in. 6-cylinder Chevrolet truck engine has worked more miles than any other. There are nine more engines to choose from.
